GISIG

<http://showcase.eenvplus.eu/>

- A public, comprehensive and structured repository of the project tangible outcomes
- Accessible from the project website
- Currently under development, to be completed at end 2015
- More material (videos, presentations) to be added, specially regarding Pilot results
- Divided in two main sections:
 - The eENVplus products and services (eENVplus infrastructure or the eENVplus «bricks»)
 - Application cases and user stories (eENVplus Pilots)
- For each entry in the showcase you can find:
 - Gateway to applications/demonstrations
 - Video demos
 - Links to Training material
 - Use and reuse terms and links to Source Code if available

Let's take a tour
